EDUCATION

University of Chicago

B.S. Data Science | B.A. Business Economics | Minor: Computational Neuroscience

Chicago, IL

Expected Jun 2029

- Cumulative GPA: 3.70/4.00
- Activities: Data Science Society, Neurotech Club, Undergrad Law Magazine, South Asian Student Association

EXPERIENCE

Fenwick & West LLP

Forward Deployed Operations Intern

Mountain View, CA

Jul 2026 - Present

- Partnering with attorneys, finance teams, and business groups to transform manual legal and operational workflows into AI-powered tools using Python, SQL, Azure Databricks, and Azure DevOps
- Mapping client and file-intake processes and evaluate integrations across internal systems and external company data to reduce manual validation and support measurable time and cost savings
- Developing an automated complaint-monitoring workflow across legal data sources and Outlook to alert attorneys

Teachers Supporting Teachers

Data & Operations Intern

Chicago, IL (Remote)

Jun 2026 - Present

- Auditing program data across four stakeholder groups, standardizing retention, leadership, and staff-capacity metrics for Tableau dashboards, funder reporting, grant materials, and the SY25–26 annual report
- Building and maintaining a Salesforce CRM recruitment pipeline tracking prospective school partners, key decision-makers, and outreach to strengthen partner recruitment and expansion beyond Chicago Public Schools

University of Chicago - Memory Research Lab

Undergraduate Research Assistant

Chicago, IL (Remote)

Nov 2025 - Present

- Build Python ETL and validation pipelines that transform Prolific and JATOS exports into analysis-ready participant- and item-level datasets for statistical analysis and manuscript development
- Automate quality checks for a 650-item cognitive assessment and generate figures visualizing performance patterns and experimental effects for a coauthored research paper

campusCATALYST

Consultant

Chicago, IL

Mar 2026 - Jun 2026

- Built an Excel-based decision-support tool that consolidated and scored seven operational metrics to standardize staffed-hour planning across 232 Chicago Park District fieldhouses and support resource-allocation decisions
- Conducted stakeholder interviews and synthesized qualitative insights with quantitative operational data to identify implementation constraints, evaluate planning tradeoffs, and deliver actionable recommendations

Zoetic Motion

Research and Development Intern

Mountain View, CA

Jan 2025 - Aug 2025

- Collaborated with engineers and clinicians to translate clinical requirements into AI product features for motion analysis and form verification during remote physical therapy sessions
- Developed interactive visualizations and Figma dashboards that made TensorFlow model outputs interpretable to nontechnical stakeholders and El Camino hospital advisory board members

LEADERSHIP

Congresswoman Anna Eshoo's Student Advisory Board

Innovation, Data, and Commerce (IDC) and Health Subcommittee Chair

Mountain View, CA

Jan 2023 - Jun 2024

- Led legislative research on gaps in intellectual-property and health policy and drafted proposed legislation presented to Rep. Anna Eshoo and congressional staff
